His re-appointment will meet the approval of every one having business with the customs service along the border.

Mr. E. D. Chance, United States postoffice inspector, who had been to Ruby to investigate the killing of Postmaster Frank J. Pearson, by Mexican bandits, was a Nogales visitor last Wednesday, from the scene of the brutal murder, on Friday of last week. Mr. Chance has asked the postoffice department to offer a reward of \$5,000 for the arrest of the fiends who are said to be in hiding in the mountain of Mexico, where they fled after murdering the postmaster and his wife in cold blood, and looting the postoffice at Ruby, Santa Cruz County, three miles from the Mexican border.

ASK FOR PROTECTION.

County Attorney DeRiemer Sends Petition to War Department.

Protection for American citizens on the Mexican border at Ruby, Ariz., and recommendation that a detachment of troops from the Twenty fifth Infantry at Camp Stephen D. Little, Nogales, be sent to Ruby and stationed at that border point, are urged in a petition circulated by County Attorney A. H. DeRiemer, and forwarded today to the war department at Washington, says Tuesday's Herald.

The petition is signed by city, county, state and federal officials of this part of the state, and heads of the Nogales Chamber of Commerce, American Legion, the bar association, Elks and other lodges, medical association, heads of banks, and representative citizens of Patagonia, and other parts of the county.

The petition is addressed to the United States War Department and is headed "Protection for American citizens on Mexican border at Ruby, Arizona."

It calls attention to the killing of Postmaster and Mrs. Frank J. Pearson by Mexican bandits at Ruby, last Friday, and the killing at the same place of the Fraiser Brothers, last year, and describes the Ruby country as wild and rugged and the fact that "the few civilian officers of the county, state and federal government in this part of Arizona, are insufficient in number to cope with an armed invasion, or a local uprising of Mexican population."

The petition goes on to say "whereas there is a regiment of soldiers stationed at Nogales, and an unused army camp at Arivaca, 12 miles from Ruby, therefore the undersigned, for the purpose of obtaining protection for American life and property, request that a detachment of soldiers be stationed at Ruby, until such time as Mexican officials show a disposition to bring bandits to justice or attempt to capture or deport, or deliver, to American authorities, fugitives from justice who flee into Mexico after perpetrating crime in the United States."

Among the signers to the petition are W. A. O'Connor, judge of the superior court of Santa Cruz county; County Attorney DeRiemer, Chief of Police J. J. Lowe, Sheriff George White, Mayor J. A. Harrison, and all county, city, and federal officials, including Charles L. Fowler, collector of customs for this district.

The petition was sent to United States Senator Ralph H. Cameron, with request that it be handed to the war department, DeRiemer wiring Cameron as follows: "Am forwarding petition signed by public officials and organizations requesting war department to station mounted detachment at Ruby, for protection of American citizens."

HAZING AT UNIVERSITY.

The action to abolish hazing, taken by the Faculty of the University of Arizona at the close of the academic year, has elicited widespread interest. This rule of the Faculty has decided approval of parents and tax-payers. It became known to the authorities of the University that more than once there had been narrow escapes from serious catastrophe as a result of hazing, and since fatalities had occurred in other institutions from this cause, prompt and decisive action seemed the wise course. The hair-cutting episodes, in particular, had become highly distasteful and annoying to the public as well as to the college community. At best, hazing seemed very juvenile, a relic of the boarding-school stage of education and at worst, a dangerous and brutal sport, humiliating in the extreme to certain victims of inborn pride and courage. The University of Arizona has happily passed beyond the rudimentary stage of its progress and has won cordial recognition as a unique and dignified institution among the first-class universities of the Nation, so the abolishing of manhandling is timely and appropriate.

In order that there may be no possible misunderstanding on the part of entering students, either of the rule abolishing hazing or of the serious intention of the authorities to enforce the rule promptly and firmly, a printed slip has been prepared to be given to each student before he registers. The slip as follows:

"Formal notice is hereby given to each student who desires to enter the University of Arizona that hazing has been abolished and is from this date prohibited. Each applicant for admission is required to sign the following statement at the time of registration, 'I hereby pledge myself on my honor not to encourage or participate in hazing during my attendance at the University of Arizona'.

Contests among students according to rules approved by the Faculty are not classed as hazing."

If it should come to the knowledge of the authorities that an applicant before registering in the University has engaged in any form of hazing since the passage of the rule prohibiting hazing, he will not be accepted as a student, since such action would show that the prospective student is out of sympathy with the published policy and purpose of the University. The administration earnestly advises any student who cannot fully and cordially subscribe to the rules of this University to refrain from enrolling here and to seek such an institution as meets his ideals of discipline.
